
Lube Oil Scrubbers

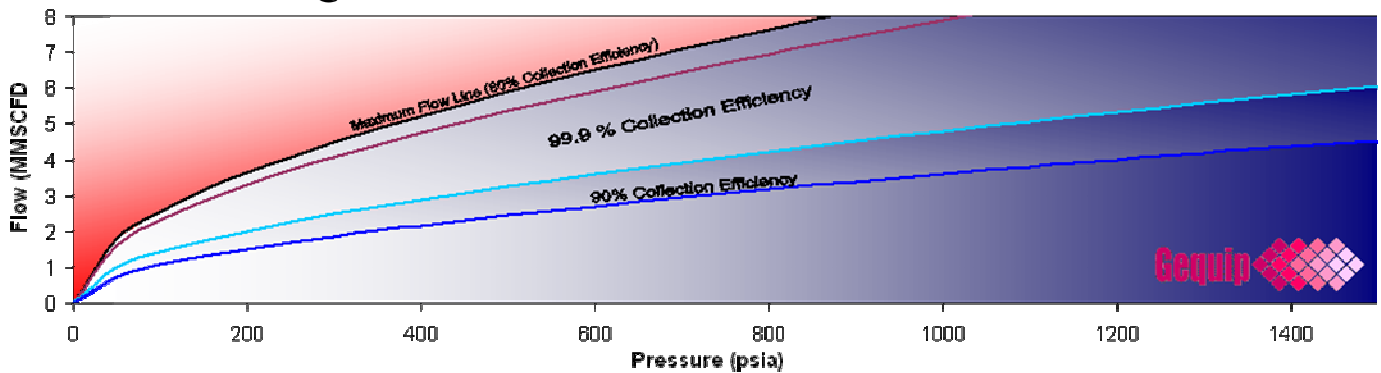

Gequip Ltd. Has come up with a low-cost solution for compressor lube oil entrainment. **Gequip** lube oil scrubbers are a cost effective, easy to install solution for lube oil recovery. Even the smallest lube oil particles are no match for the cutting edge series of scrubbers.

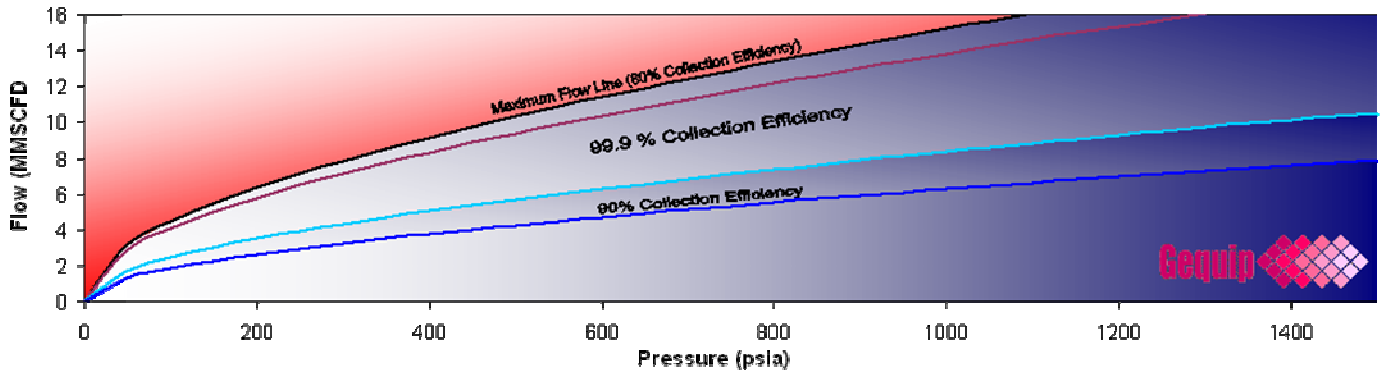

- Prefabricated Lube Oil Scrubbers, get the model you need without waiting for fabrication.
- Unique **Proprietary** droplet collection system allows for extremely efficient coalescence and separation.
- **99% removal of compressor lube oil** carryover.
- Total pressure drop through scrubber <1 psi.
- No servicing or filter elements to change.
- Inline design offers economical installation cost.
- 600 ANSI design can handle most high pressure systems.
- Available in three convenient stock models.
- Gequip offers a 100% money-back guarantee on all stock models.
- *Special orders available on larger sizes.*
